

ADEDAYO AGARAU

UX Writer · Content Designer · Creative Writer

Mobile: +13412212700 +447399366434 | contact@adedayoagarau.com | [LinkedIn](#) | [Portfolio](#) | UK and US Work Authorization

Summary: *Technical content designer with storytelling background, crafting human-centered experiences through strategic content, clear language, and scalable systems for AI and LLMs.*

EXPERIENCE

Grok Content and Interaction Designer

X.AI – Sep 2024 – Present

- Defined, refined, and optimized over **1,000,000 datasets** based on model performance insights and team goals, achieving a **78% average content optimization rate** across LLM outputs per month.
 - Created UX-aligned content for system training, improving model accuracy, contextual fluency, and UI comprehension.
 - Partnered with engineering teams to enhance annotation tools, streamlining data workflows and reducing QA cycles.
 - Contributed to narrative design and scriptwriting for Grok's conversational flows, shaping a more human, witty, and emotionally attuned AI persona for AI/ML data pipelines.
 - Designed and developed clear, detailed task instructions for content creators, using examples and clear prompt engineering to illustrate nuanced quality expectations.
 - Designed multi-turn dialogue patterns and voice consistency systems to improve user engagement and conversation coherence.
 - Conducted prompt engineering using task-specific and persona-based frameworks, significantly boosting Grok's reasoning quality and intent recognition.
 - Communicated insights and progress through regular reports, dashboards, and LLM data documentation.
 - Applied content design principles to iteratively test, refine, and scale AI responses across diverse user contexts and scenarios.
 - Designed best practices and guidelines for instruction design, vendor collaboration, and data quality assurance.
-

Lead Content Designer

TechMahindra for Google – May 2023 – Sep 2024

- Directed UX content strategy for **implicit workflows** (e.g., Weather, Content Context) powering Gemini and Magi.
- Led the processing of **300,000+ data assets**, achieving a **100% success rate** and **90% helpfulness score** at launch.
- Defined, refined, and optimized over **10,000,000 datasets** based on model performance insights and team goals, achieving a **78% average content optimization rate** across LLM outputs in 6 months.

- **Audited datasets** and refined tools, including content guidelines, **tone and voice guide**, and **quality rubrics** to streamline qualitative reviews and accelerate feedback loops.
 - Enabled **1M+ real-user queries** over 5 months by improving contextual understanding and journey logic.
 - Analyzed data quality using quantitative methods, identifying trends, blind spots, and opportunities for LLM output improvement.
 - Rewrote AI-integrated content paths in Google Search, improving query clarity and reducing user friction to improve AI/ML data pipelines.
 - Contributed to the development of Google's internal content style guides and prompt design frameworks for Gemini and Magi, helping unify tone, clarity, and consistency across AI-generated LLM outputs.
 - Communicated insights and progress through regular reports, dashboards, and LLM data documentation.
 - Collaborated with vendors to iterate on small data batches and align on LLM quality benchmarks.
 - Collaborated across product, UX, and research to deliver a **25% lift in content comprehension and system accuracy**.
 - Designed best practices and guidelines for instruction design, vendor collaboration, and data quality assurance.
-

Ux Writer & Content Strategist

Scalex – *Mar 2021 – Feb 2024*

- Defined voice, tone, and microcopy for a crypto–fiat mobile app; contributed to a **51% increase in user engagement**.
 - Created **data-driven user personas** to align content strategy with user behavior, improving engagement and product clarity.
 - Audited datasets and built tools, including content guidelines, tone and voice guide, and quality rubrics to streamline qualitative reviews and accelerate feedback loops.
 - Communicated insights and progress through regular reports, dashboards, and product documentation.
 - Decreased bounce rates by **31%** by restructuring information architecture and simplifying navigation.
 - Created and maintained a comprehensive content design system with standardized microcopy patterns, component documentation, and content guidelines that improved team efficiency and ensured voice consistency.
 - Designed best practices and guidelines for instruction design, vendor collaboration, and data quality assurance.
 - Built onboarding flows and contextual tooltips that reduced support tickets by **46%**.
 - Developed and tested product marketing content, generating **+47% open rates** and **+51% lead conversion**.
 - Conducted user research and usability audits to inform content decisions and product improvements.
-

Narrative Content Designer (*Freelance*)

Calm – *Jul 2021 – Jul 2023*

- Wrote immersive story-driven content for 100M+ users, tailored for relaxation, insomnia relief, and bedtime rituals.
- Designed tone and pacing through data-informed narrative flows, increasing listener engagement and retention.

- Collaborated with producers and voice talent (e.g., Chike Okonkwo, Idris Elba) to align UX with emotional tone.
 - Authored guidelines for instruction design, vendor collaboration, and data quality assurance.
-

Regional Content & Product Ux Lead

Phoenix Browser – Sep 2018 – Aug 2021

- Led content operations across Africa, optimizing browser UX and increasing in-app interaction by **73% in one year**.
 - Communicated insights and progress through regular reports, dashboards, and LLM data documentation.
 - Developed push notifications for **25M+ users**, achieving **57% CTR** and **72% tap-through rate (TTR)**.
 - Launched two user growth features:
 - *Video Share for Points*: gamified sharing to boost stickiness
 - *Meme Bank*: automated meme downloads to WhatsApp, reaching **91% adoption at launch**
 - Represented content at board-level strategy meetings and contributed to product innovation planning.
 - Designed best practices and guidelines for instruction design, vendor collaboration, and data quality assurance.
-

EDUCATION

University of Southern California — *Ph.D. Creative Writing, 2030 (Part time)*

Stanford University — *Wallace Stegner Fellow, Creative Writing · 2023–2025*

University of Iowa — *MFA, Creative Writing · 2021–2023*

SKILLS & TOOLS

UX Writing & Strategy: Microcopy Development, Content Design Systems, Voice & Tone Guidelines, User Journey Mapping, Conversational UX Design, A/B Testing for Copy, Accessibility Writing, Information Architecture, Content Localization, Design-to-Writing Collaboration

Design & Research Tools: Figma, Adobe XD, Miro, UserTesting, Hotjar, FullStory, Optimal Workshop, Maze, UsabilityHub, Card Sorting, Botpress

AI & Conversational Design: HELM tools, Image2Struct, AIR-Bench, Capabilities, LM Evaluation Harness, Starfleet, Scale RLHF, Surge AI, Toloka, Amazon SageMaker Ground Truth, Prompt Engineering, Multimodal Content Design, Chatbot Scripting, VUI (Voice User Interface) Content, Emotional Intelligence Integration, AI Personality Development, Context-Aware Responses, Error Handling & Recovery

Data Auditing: Cleanlab, WhyLabs, Aquarium Learning, Snorkel Flow, and Labelbox Model Diagnostics

Project Management & Collaboration: Agile Methodologies, Cross-Functional Team Leadership, Content Governance, Style Guide Management, Design System Documentation, Content QA Workflows, Jira, Asana, Notion, Slack

Analytics & Optimization: Weights & Biases, Comet, Neptune.ai, MLflow, ClearML, WhyLabs, Arize AI, Evidently AI, PromptLayer, LangSmith, Content Performance Metrics, Google Analytics, SEO-Optimized UX Writing, User Behavior Analysis, Content Auditing, Conversion Rate Optimization,

Heuristic Evaluation, Content Testing Frameworks, Hugging Face Accelerate, Hugging Face Optimum, ONNX Runtime, NVIDIA TensorRT-LLM, Apache TVM, Intel Neural Compressor, Optuna, Ray Tune, Katib.
